## Profile

---

Dedicated and enthusiastic software developer with a deep passion for continuous self-improvement. My professional journey is driven by a desire to excel in both soft and hard skills while fostering productive collaborations with colleagues. I firmly believe that great software development extends beyond code; it's about teamwork, communication, and adaptability.

## Experience

---

02/2024 – present

### **Software Developer, Climarol Prest**

- Proficiently developing and maintaining company websites and applications using the MERN stack (MongoDB, Express.js, React, Node.js).
- Implementing continuous testing methodologies with Jest to ensure code reliability and robustness.
- Demonstrated strong communication skills to facilitate seamless coordination and alignment among team members.
- Embraced Agile methodologies to adapt to evolving project requirements, ensuring flexibility and responsiveness to change.
- Contributed proactively to sprint planning, stand-up meetings, and retrospective sessions, fostering a culture of transparency and continuous improvement.
- Worked closely with cross-functional team members to gather feedback, iterate on designs, and deliver high-quality solutions that meet user needs and business objectives.

02/2022 – 04/2023

### **Full Stack JavaScript Developer, DevNest**

- Developed user interfaces using HTML, CSS, and JavaScript to ensure a visually appealing and responsive user experience.
- Implemented client-side programming with React to create dynamic web interfaces, handling tasks like user input validation and client-side routing.
- Ensured cross-browser compatibility and responsive design, providing a consistent user experience across various browsers and devices.
- Developed server-side applications using Node.js, managing APIs and server routes to handle requests from the front end and interact with the database.
- Created and managed RESTful and GraphQL APIs for seamless interaction between the front end and back end.
- Collaborated with cross-functional teams, including designers and project managers, to deliver successful web development projects.
- Conducted unit testing and integration testing, identifying and resolving issues in both front-end and back-end components.

## Education

---

07/2023 – present Oradea	<b>Master's Degree in Distributed Systems in the Internet,</b> <i>Universitatea din Oradea</i>
07/2020 – 06/2023 Oradea	<b>Bachelor's Degree in Computer Science,</b> <i>Universitatea din Oradea</i>

## Skills

---

### Frontend Development

*React with JavaScript or TypeScript*

### Database Management

*MongoDB, SQL*

### Unit Testing

*Jest*

### Backend Development

*.NET Core, NodeJS*

### Version Control

*Git with GitHub or GitLab*

### Working Agile

*Jira*

## Languages

---

### English

*Professional speaker*

### Romanian

*Native speaker*

### Hungarian

*Native speaker*

## Certificates

---

- Cambridge CAE
- SoloLearn JavaScript Certificate
- SoloLearn CSS Certificate
- SoloLearn Python Certificate
- SoloLearn React Certificate
- SoloLearn HTML Certificate
- SoloLearn C# Certificate
- SoloLearn Java Certificate
